Welcome to Hamburg!

We invite you to be part of the 6th International Conference On Pediatric Liver Disease in Hamburg. It is our mission to connect health care professionals engaged in pediatric hepatology, surgery and transplantation in order to exchange insights into the latest diagnosis, treatment, and up to date research in pediatric liver disease. This year's symposium will focus on neonatal cholestasis, liver transplantation and metabolic hepatopathies. Interactive case discussions will contribute to an exciting program. We, again, cooperate closely with ERN Rare Liver and ERN Transplant Child.

We are looking forward to seeing you in Hamburg or online.

The University Medical Center Hamburg-Eppendorf

Ania C. Muntau

Director of University Children's Hospital

Jun Oh

Head of Pediatric Transplantation

Lutz Fischer

Director of Visceral Transplantation

Uta Herden

Head of Pediatric Transplantation Surgery

Gwendolyn Gramer

Head of Department for Inborn Metabolic Diseases
